Albuquerque, NM 87114
(505) 831-1600

Coming in January 2012:
4101 Morris Street NE, Suite B
Albuquerque, NM 87111

“As an orthodontist, I get to know my patients sometimes over years,” says Dr. David J. Harnick. “I love watching the young patients turn into young adults with beautiful smiles. The many adults that have orthodontics are a pleasure to work with, and I cherish my relationships that we develop.”

Dr. Harnick’s main services include correcting bites (malocclusions), straightening teeth, and making beautiful smiles and profiles. “The tools I use are braces, Invisalign and Invisalign Teen,” Dr. Harnick says. “Sometimes, I work with an oral surgeon for complete reconstruction of the jaws and face. I am an expert in early orthodontic treatment, braces and Invisalign.”

And with his experience as a Master in the Academy of General Dentistry, as well as a board certified Orthodontic specialist, Dr. Harnick plans to keep Albuquerque smiling for quite a while. “I think the future for orthodontics looks great,” Dr. Harnick says. “With computer aided treatment, orthodontics will be more customized for each patient. Treatment times will be further reduced and the whole process will be easier on both the doctor and patient. Invisalign will be enhanced and become a greater part of mainstream orthodontics.” Harnick Orthodontics’ future looks great also, as Kari, Dr. Harnick’s daughter, will be joining the practice after she finishes her schooling.

Dr. Harnick’s passion for his patients and emphasis on educating them on their options has helped him increase his clientele, and is allowing him to open a second location on Morris Street and Montgomery Blvd. in January 2012. Dr. Harnick has served on the board of Special Olympics of New Mexico for 10 years, volunteers at the UNM School of Dental Hygiene, and has been president of the New Mexico Society of Orthodontists for the last four years. Dr. Harnick has also been voted the top Orthodontist in Albuquerque by his peers for the past three years in *Albuquerque The Magazine*. “I feel my strength is that I care! I am fanatical about continuing education and constantly improving my care. I want my patients to enjoy the entire process of orthodontics.”
