

David J. Harnick DDS, MSD
8631 Golf Course NW, Ste F
Albuquerque, NM 87114
(505) 831-1600

How Do I Get Started?

2 Easy Steps

- 1) At this initial appointment, Dr. Harnick will give you an idea of the orthodontic treatment that is recommended if necessary. At our office, we take complimentary photographs, a panoramic radiograph, and a complete exam. This allows us to give you a more accurate assessment.
- 2) The next step is to have records which requires study models of your teeth and a cephalometric radiograph. These are necessary and included in your case fee. Then, in most cases, we are ready to start. Separators can be placed and the braces attached to your teeth the very next week.

Of course, these steps are the most common method. There are a few variations depending on your needs and the exact treatment plan.

Thank you for choosing our office!
